

## REACH EC1907/2006 Statement

**Electronic Manufacturing Solutions Limited (EMS)** statement regarding **REACH EC1907/2006**.

EMS's products (assemblies) are classified as articles that are not intended to release substances under normal or foreseeable conditions of use. Therefore, we are not directly required to register the substances used in their manufacture. However, we do recognise that the REACH regulation requires us to communicate with our supply chain to ensure our products are compliant.

To the best of our knowledge all articles supplied by EMS are compliant with **REACH EC1907/2006 & (EU) 2023/1132** including the candidate list dated 8 June 2023 do not contain any Substances of Very High Concern (SVHCs).

We will inform you immediately if we are informed by our suppliers, of any findings of SVHCs as of the actual Candidate List in products you purchase from us.

## Persistent Organic Pollutants Regulations, 2007, (POPS)

POPS regulations came into force on 1<sup>st</sup> January 2023. Wastes classified under POPS cannot be disposed of at landfill sites and must be incinerated. Such substances break down very slowly in the environment and accumulate in the food chain. The manufacture of products containing these substances are now banned in the UK.

EMS do not use any products that contain POPS substances to the best of our knowledge.

## Toxic Substances Control Act 1971, (USA)

EMS is not directly affected by this regulation from the USA, but it does have customers who are affected.

EMS, to the best of our knowledge, do not use any products that contain substances that are restricted under the Toxic Substances Control act.

## Disclaimer

The statement above has been reviewed with recent revisions to the official lists. EMS has consulted with suppliers and official sources before confirming the above.

The statement provided in this document and disclosure is correct to the best of **Electronic Manufacturing Solutions Ltd (EMS)** knowledge, information, and belief at the date of its release.

Signed

Jonathan Plummer  
Managing Director
